Full Project Management

Building a Strong Future Together.

At Explore, we understand that meaningful partnerships begin with listening. Every Indigenous Nation is unique, and we take a Nation-specific approach to building long-term relationships rooted in respect for culture, knowledge, economies, beliefs, and Indigenous Peoples as Rightsholders.

Through proven projects, our partnerships have generated 15–38% revenue return to Nations, creating lasting economic and community benefits.

EXPERIENCE MATTERS.

Explore brings a combined 300+ years of technical experience to our clients' assets, and our approach is unmatched within industry, recognizing that specialization in all areas is essential to protecting our clients' assets – people, environment, and land – and leads to maximum return on investment.

WE DO *MORE* THAN YOU THINK
